

SLEEK, CLEAN LINES define the modern Frankfort Methodist church. The congregation moved in the new quarters on Jan. 16, 1958, with a special service planned for Sunday, Jan., 19, 1958. A composite of lannon stone

and brick is highlighted by a huge roof with an exaggerated overhang. The large portion is the sanctuary while the extended area is made up of Sunday school rooms and church parlors.

SIMPLICITY IS THE keynote in the sanctuary of the Frankfort Methodist church. A beamed ceiling adds height to the combination stone and brick backdrop for the altar. Modern lines were used in construction of the pews which are decorative as well as functional. A simple altar completes the interior picture of a present-day church.

THE REV. JAMES A. PARKER came to the Frankfort Methodist church this year as its pastor. The present church membership of 270 is under his guiding hand. In this picture, Mr. Parker stands at the pulpit of the new church.

Frankfort Methodist Church Begins 105th Year

In 1856 the Methodist congregation erected the first church building in the village of Frankfort. The pastor, Rev. S.R. Beggs, who was known in those days as a circuit rider, preached in several localities. The building, which cost \$2,000 was dedicated in 1857 by Rev. Samuel Hewes.

With the growth of the village and the floor breaking down during a funeral service, the congregation felt the need of a new building. In 1908 a new edifice was erected, at a cost of \$3,500. It was dedicated in February of 1909, with Rev. R. Vandervoort serving as pastor.

A parsonage was constructed in 1925. The year 1937 saw an extensive remodeling project and in 1946, an electric organ was installed. Once again in 1948, a complete renovating took place. This included replastering, a new floor and rereading of the stained glass windows.

On July 1, 1955, the Green Garden and Frankfort Methodist churches made a historical decision by breaking the union of the two congregations, which had taken place in 1927. Rev. Ben F. Day was appointed pastor and the membership increased rapidly.

In 1955 a bequest of \$40,000 was granted to the church by the late Joseph McGlashan to be used for building purposes. January 22, 1956, was a historic day for at a special quarterly conference and congregational meeting, the members voted to relocate and build a new edifice at the cost of about \$200,000 on Sauk Trail.

Negotiations were completed for the purchase of five acres and a drive for funds began in March, 1956.

The official board declared 1956-1957 the Centennial year with the official Centennial observance beginning with the ground-breaking for the new church on Nov. 25, 1956. On

May 12, 1957, a Mother's Day, the Sunday school presented a historical pageant which climaxed with the presentation of the cornerstone for the new building by LeVerne Mark, president, on behalf of the senior MYF as a tribute to mothers.

Cleaning and moving began on Jan. 16, 1958, with a special service planned for new church building on Sunday, Jan. 19, 1958. The consecration service took place on Sunday, March 2, 1958. The present membership is 270 members and Rev. James Parker is the pastor.

The Centennial committee was comprised of Mrs. W.W. Morrison and Jack Ewing as co-chairmen, Mrs. Clinton Mark, Mrs. Daniel Hecht, Mrs. Katharine Heisner, Mrs. Claude Otto, Dr. Merle Otto, Lloyd Heisner, Henry Heisner, LeVerne Mark and Albert Swatek. On the board of trustees at the time were Ewing, Henry Mark, Arthur Bauch, Morrison,

Arthur Mark Sr., Mrs. Amanda Mark, Harry Tewes, Frank Heisner and Ervin Schellhase.

The placing of articles in the box and laying of the cornerstone was taken care of by Mrs. Joseph McGlashan, Arthur C. Mark, trustee chairman; Charles Mark, Jr., senior MYF president, and Arthur C. Bauch, building committee chairman.

There are two circles of the Women's Society for Christian Service. Mrs. Jacob Hostert is chairman of the afternoon circle, which meets on the first Thursday of every month in the church parlors.

Mrs. William Smith heads the evening circle group as chairman. This group meets on the first Tuesday of each month. Newly elected officers for the WSCS are Mrs. Lloyd Heisner, president, and Mrs. Rudy Urbano, vice-president; Mrs. Clyde Riels, secretary, and Mrs. Ervin Schellhase, treasurer.

Chairman of the official board is Albert Swatek. Board of

trustees is composed of Wendell Morrison, Mrs. Amanda Mark and Robert Erdmann, 1962; Lloyd Heisner, Dr. Merle Otto and Harry Miller, 1963; and Ralph Albers, William Breidert and Dan Hecht, 1964.

Ralph Dralle is lay delegate to the annual conference with Arthur Bauch as reserve lay delegate, Arthur is Lay leader and Mrs. Albert Swatek is recording steward. Mrs. Jacob Hostert is financial secretary; Miss Lois Bettenhausen, church treasurer; Ralph Dralle, church school superintendent; Clyde Riels, director of stewardship and Dr. Otto, custodian of deeds and papers.

N. Lenox Trio Injured When Car Overturns

A New Lenox man, his wife and their one-year-old daughter escaped serious injury Monday afternoon when the auto in which they were riding left the road and rolled over on the Spencer Road about three miles southwest of New Lenox.

Treated and released from Silver Cross Hospital were the driver Wilson Packley, 26, Rt. 1, his wife, Mary, 20, and their baby girl, Cynthia.

Packley suffered cuts and bruises about his body, while his wife and their daughter sustained minor bumps and bruises.

Packley was ticketed by State Trooper Harold Bright for "driving too fast for conditions".

Packley said he was east-bound on Spencer road when he lost control of his car on the loose gravel. The vehicle skidded several feet, went into a ditch and overturned.

Packley was thrown from the overturning vehicle.

Frankfort Legion Pushes Annual Homecoming Plans

Members of Bobzin-Swinford post, American Legion, of Frankfort are busy these days attending to last minute details of their annual homecoming which is to begin next Thursday, July 27, and run thru Sunday, July 30.

The event is to be celebrated in Frankfort Community park. There will be rides and games for adults as well as children; an Amateur Softball Association and Little League baseball tournaments; a Kiddy and Pet parade; a band concert, and a big fireworks display will be the closing feature attraction Sunday night.

One of the features of the carnival section will be a new ride, "The Corral," which is being introduced in this area for the first time, according to Daniel Hecht and Charles Schuldt, chairman and co-chairman of the homecoming.

The rides and games will be open Thursday and Friday at 6 p.m. and on Saturday and Sunday at 4 o'clock.

A refreshment stand operated by the Women's Auxiliary will serve home-made cakes and sandwiches, and coffee. The post will operate a refreshment stand dealing in soft drinks, ice cream and candy.

One of the most popular events scheduled is the Kiddy parade Sunday. The youngsters are to form on the Frankfort school grounds at 3:30 and the parade will move off at 4 p.m. They will march to park where the judging will take place and trophies awarded by the Legion to the winners in seven classes --pet, patriotic, costume, comic character, decorated bicycle, tricycle of wagon, group and couple.

Music for the parade will be furnished by the Frankfort grade school band. Also marching will be the Boy Scouts, Brownies and 4-H girls of Frankfort. Mrs. Daniel Hecht and Mrs. Kenneth Oeter are co-chairmen in charge of the

parade.

A community concert is to be given at 7:30 o'clock Sunday night by the grade school bands from New Lenox, Manhattan, Mokena and Frankfort under the direction of Perry Friedman.

Seven teams are entered in the Legion's District 5 tournament of the Amateur Softball Association -- Bob and Clara's and the Cook County Merchants, Chicago Heights; Matteson Sportsmen; Monee Sportsmen; Manhattan Shadows, Downers Grove Merchants and the Frankfort Legion.

Games will start each evening at 8:30 o'clock. The winners

will go to the Metropolitan Tournament. The championship trophy will be presented by Kenneth Oetter, of Frankfort, commissioner for District 5, A. S. A.

Starting at 1:30 p.m. Saturday, July 29, the Frankfort Little League team will meet Peaton and at 3:30 Steger will play Grant Park. The losers will meet Sunday afternoon at 1 o'clock and the winners will play at 3:00. Following this game the post commander, Warren Anderson and Jerry Francis, chairman of the Little League tourney will present three trophies.

Frankfort Appropriations For Year Total \$104,347

The Frankfort village board adopted its appropriation ordinance for the fiscal year of 1961-62 at the regular meeting on Monday night. The total amount appropriated is \$104,347, which is about \$5,000 higher than last year's figure.

It was pointed out by Village Attorney Albert H. Krusemark that the amount appropriated does not mean that the village intends to spend that much or that it will have that much to spend. He explained that before the village can spend money for a specific purpose it must be appropriated.

Because of that feature appropriation ordinances are sometimes described as "if coming measures" --if the money becomes available for a purpose it can be spent because it has been duly appropriated.

The Frankfort appropriation ordinance is published in detail on another page in this issue.

The board also paid off the sewer contractor, D'Andrea Construction Co., Monday night, with the exception of a one per

cent holdback of \$2,837.30 to cover possible contingencies which might develop in the next several months. The contracting firm was paid \$25,535.74. With that payment the amount spent on the installation of the sewer mains has been \$280,893.07.

Bids for a crushed rock or gravel base course for portions of two streets will be opened at the village hall next Monday afternoon, July 24, at 2 o'clock by Village Engineer Robert Hamilton.

The improvement involves 419 feet on Smith street between Elwood and West Bowen, and 696 feet on East Bowen, from Frankfort street to the east village limits.

Arbury Hills Developer Offers Use Of House For Kindergarten

MRS. EDWARD HOVI
Tel. Mokena 5740
Edward Feeley, local developer, has generously given the Kindergarten organization their choice of an unoccupied house, free of charge, to start their September class.

At the July meeting of the organization, it will be decided which of the houses it will be. Mr. Feeley will paint the house, and install the plumbing and oak flooring.

The parents of children who will be entering kindergarten in September, will have to have the child undergo a physical

examination before entering. The Civic Association bowling party was held, Sunday afternoon, July 9, at the Tinley bowling lanes. There were fifteen bowlers and many watchers for the event.

The men's high score prize was won by Raymond Rasor of 9449 West Birch Street with a score including handicap of 616.

The women's high score prize was won by Mrs. Theodore Rydell of 9546 West Hickory Street with a score including handicap of 545.

The "Booby" prize for low score was won by Mrs. Robert Burdett of 9442 West Hickory Street with a score of 494 including handicap.

Our end-of-June storm left two homes unroofed along with a chimney, numerous broken windows, and pretzel shaped gutters.

Mr. and Mrs. Ed Clepy of 9437 West Birch Street lost the back half of their roof, and Mr. and Mrs. Arthur Fife of 9431 West Birch Street, their next door neighbor, lost a chimney and one other hole in their roof. The other damaged roof belonged to Mr. and Mrs. William O'Neill of 19327 South Oak Street.

The fact that the electricity was off for seven hours, lent an atmosphere of the pioneer days to the area. The helpfulness of the men in working together was also reminiscent of pioneer men. Their help is something which will be remembered with great appreciation by all concerned.

Mr. and Mrs. J.L. Galbreath and their daughter Jana stopped off to visit Mr. and Mrs. Archie Estes of 19345 South Oak Street. Mr. and Mrs. Galbreath had worked with Mr. and Mrs. Estes back in Dallas, Texas. The visit was short, since they were enroute to visit relatives in Wheaton.

Mr. and Mrs. Brian Williams were visited by Mrs. Williams' parents, Mr. and Mrs. C.F. McCaffery from Detroit, Mich. After they had left, the Williams took a trip to Detroit to visit her sister and her parents.

On the return trip, Mr. and Mrs. Williams were accompanied by Mrs. Williams' niece, Miss Linda Monahan also of Detroit. Linda spent two weeks with her aunt and uncle before returning home.

Mr. and Mrs. Raymond Rasor of 9449 West Birch Street have had two children of their friends from Worth, Judy Bell, and her brother Jeffery. They will be staying for at least two weeks, and perhaps more.

Johnny Scott of 9412 West Birch Street broke his arm when he fell off his new big bicycle, but it is mending nicely.

Billy O'Neill of 19327 South Oak Street also broke his arm in a freak accident while playing. A short time later his little sister managed to puncture a tonsil with a popsicle stick.

Austin Brant of 9436 West Willow Lane had an emergency appendectomy operation on July 11. He is recuperating nicely, and returned home Saturday.

Highlight of the day was a two hour parade which is annually sponsored by the Lions club of that city, and the formal presentation of a new city flag, designed by Jean Vollrath, 12 year old daughter of Mrs. George Vollrath, 12259 Maple St., winner in a city flag contest, sponsored by the Veterans of Foreign Wars post.

The flag's shield carries an eagle and two of the city's phrases, "City on the Hill" and "All Roads Lead to Blue Island." Miss Vollrath was awarded a \$100 bond as the winner.

She is a relative of the Frankfort group attending the affair. She is a granddaughter of Mr. and Mrs. Edward Vollrath of Joliet who are former Frankfort residents, and a granddaughter of Mrs. Lena Lawn of Blue Island.

Karen and Jean Vollrath of Blue Island spent a week recently as houseguests of their aunt, Mrs. Clara Bennett.

Mrs. Ida Priami underwent major surgery at Silver Cross hospital recently.

Mr. and Mrs. Albert Fruechte and family of Albin, Iowa, spent the past weekend with his sister and her husband, Rev. and Mrs. Erich Bizer.

Dr. and Mrs. Claude Otto and family spent Sunday afternoon with Mr. and Mrs. John

Adams, at Culver, Ind.

Miss Mary Ann Otto left by plane from Chicago Friday evening for a two week vacation as a guest of Pam Clark, Vero Beach, Fla..

The Ladies auxiliary met at the local grade school Thursday evening with Mrs. Don Stephen presiding. Plans were discussed for the Legion picnic to be held July 27, 28, 29 and 30 at the Frankfort park. Mrs. Stephen and Mrs. Edmund Ebert served refreshments.

Dale Morrison, son of William Morrison, spent last week with Donald Carlson.

Mr. and Mrs. Burnett Schram and family spent Thursday at Schafer Lake, Monticello, Ind., with Mr. and Mrs. Sam Foster and family.

A surprise housewarming with a 1 o'clock potluck dinner was held Sunday at the home of Clark Bennett, Jr., in Rockford. Those attending were Mr. and Mrs. Clark Bennett, Sr., Mr. and Mrs. Burnett Schram and family, Arthur Boat, Mr. and Mrs. Ralph Nieland, Mrs. Bertha Nieland, Mr. and Mrs. Gene Bennett and family of Sauk Village, Mr. and Mrs. Mac Carlson and daughter of Hobart, Ind., and Mrs. Joseph Hartung and daughter, Pamela, of New Lenox.

Miss Dori and Miss Janet Bauch entertained 12 nurses from Illinois Research hospital in Chicago at a swimming party and barbeque at the home of their parents, Mr. and Mrs. Arthur Bauch.

**GAS Water Heaters excel in
every way... operate at lowest cost**

Gas heats water really fast. Instant heat plus stepped-up burner capacity on today's heaters means you can depend on a generous supply of hot water—any time—with gas. For example, modern 40-gallon automatic gas water heaters reheat up to 42 gallons an hour!

Consider your own peak needs. Tub bath, 15 gallons... shower, 3 gallons per minute... dishwasher, 7 gallons a load... automatic clothes washer, 20 gallons a load... regular washer, 17 gallons a load. You can depend on today's gas water heaters to serve all your needs.

The fastest hot water is cheapest, too. In fact, enough hot water for an

average family—about 60 gallons a day—costs only \$37 a year with gas. The same amount of hot water with other type heaters would cost \$65. Gas brings you true luxury, at lowest cost.

Now is the time—ask about our LIBERAL TRADE-IN OFFER!

Can't Go Soft Now

(Taken from the Industrial News Review)

It has been observed that, during his campaign, President Kennedy was critical of personal diplomacy—that is, diplomacy conducted at the highest levels, by chiefs of state, rather than by lesser officials. And the dangers that are inherent in personal diplomacy are evident enough — a decision made, a sentence spoken, by the head of a government becomes a matter of international moment instantly, and it is exceedingly difficult to take back. On the other hand, the acts of juniors can, if need be, be disavowed.

Yet Mr. Kennedy has been conducting personal diplomacy on an intensive scale with his counterparts in half a dozen countries. And this apparent reversal of policy, some of the leading commentators have been writing, is the result of a knowledge Mr. Kennedy has gained since assuming office — the knowledge that in this incredibly swift-moving age personal diplomacy is inevitable and unavoidable, whatever its disadvantages may be.

In any event, U. S. policy vis a vis the Soviet Union has been clarified. No transcript of what Mr. Kennedy and Mr. Khrushchev had to say to each other in Vienna has been published and the authorized summaries have been of an extremely general nature. But it is clear that Mr. Kennedy is following what might be called a "hard" line — a line in which he says, in effect, we can go no farther, whatever the risks, and we will stand firm on what we conceive to be the fundamental and changeless interests of the United States and the Western alliance.

This, no doubt, has earned Mr. Khrushchev's respect — the Russians understand and respect toughness, even as they are the first to make the most of any show of weakness. Beyond that, it has served to sharpen the primary areas of difference between the two great nuclear powers and, perhaps, to bring very near the moment of ultimate show — down.

We have problems aplenty, as all know. Spin a globe of the world and their sites will come before your eyes one after another — Cuba, much of the rest of Latin America, Vietnam, Laos, the whole Middle East, Africa with all its new, restless and unpredictable nations, and so on and on. But the probability is that the most dangerous and critical area of the lot is that old one — Berlin. A truly unified Berlin is virtually beyond conception. But the Soviets and their satellites are determined that West Berlin, as a free city with free government, must cease to exist, and must be brought into the totalitarian octopus that East Berlin represents in all its harsh grimness. The show-down may come soon — perhaps by fall, perhaps sooner. Then the danger of a shooting war will become agonizingly acute. It is a risk that Mr. Kennedy appears ready to accept, as a matter of sheer necessity, and all the indications are that the American people and the leaders of both the parties, support him solidly in this resolve. In essence, he says to the Soviet empire: "We have gone this far, and that is all. We will go no farther, no matter what the dangers may be."

This hard policy explains why Mr. Kennedy has been working so determinedly to shore up the Western alliance, and to resolve the differences between the participating powers. Mr. Macmillan goes along — it is certainly no secret that, today, an England without the United States for an ally and a shield would be almost totally defenseless. Yet, within the United Kingdom, and even within Mr. Macmillan's conservative party, there are dissidents. Some go so far as to say submission to the Soviets would be preferable to conflict, and to the death and ruin that would come with it. This is a continuing problem, and its gravity should not be underestimated.

The question mark is President De Gaulle of France. It is generally agreed that he is a very great man. His faith in France's ultimate resurgence never faltered, even in the darkest days of the Vichy government, when he was condemned to death in absentia. But, like most great men, De Gaulle is extraordinarily difficult. He has a vision that never fails him — a vision of France as she used to be, the first among nations, the leader of all. It is profound pride that leads him to refuse American leadership, to attempt to make France a nuclear power in her own right and, even, to threaten to abandon NATO. This last possibility must trouble Mr. Kennedy most of all. For a NATO without France would, for geographical reasons if none other, be a weak reed indeed. The collapse of the system, as a force to be reckoned with, a force to make the Soviets think twice before risking violence in Europe, would be likely. According to the best reports, the Paris meeting of Mr. Kennedy and Mr. De Gaulle was cordial, productive, and of some value. But there is nothing to show that the French President's fundamental and romantic view has changed in the slightest.

Time will tell. And something the President has said has to do with that truism: "There is very little time. The enemy is lean and hungry and the United States is the only strong sentinel at the gate."

On Second Thought

By GLENN F. LOGAN

Back from a jaunt to the midwest—Missouri and Kansas—and found things about the same there as here.

Some days hot, some days cool; some people complaining about the weather and some enjoying it. In some fields the corn is strong and healthy-looking while in other spots it is poor and spindly.

In Kansas—since its creation a state of odd-ball laws—the lawnmower makers apparently have a very strong lobby. They tell me that Kansas has a law which permits cities and villages to limit the height to which grass may grow—by ordinance that is.

No cases were brought to the attention of your correspondent in which such law has been enforced and it seems doubtful that one would ever find a jury, or even a judge for that matter, that would find anyone guilty of violating such an ordinance.

Probably would take a special police force too. Members could disguise themselves as night-crawler hunters and so sneak from yard to yard with rulers up their sleeves with which to measure grass.

Sounds goofy, doesn't it? But then every state has goofy laws. But that is to be expected. There are a lot of goofy guys elected to legislatures and congress and eventually they succeed in getting some of their pet schemes transformed into law.

The legislators responsible for getting goofy laws on the books are usually satisfied with that and don't care whether or not they are enforced.

One thing that is claiming some attention in the Kansas City area now besides the heat, humidity and the way the Athletics play baseball, is the furnace repair racket. This form of con game is common to the country as a whole and you all know how it has been operated here.

A man, or two men, come to the door, stating they represent a furnace manufacturer or distributor. They also know all about any make furnace, they say, and will be glad to inspect yours and see that it is ready for service for next winter. Whether or not these people know how to fix a furnace is a matter of conjecture, but they sure know how to wreck one.

And that is what happens if you let them in the furnace room.

With a few well directed blows they proceed to put the furnace on the hummer.

Unless the frame of the door leading into the furnace room is a masked guillotine that can be set off at a touch of a finger or a large steel ball can be released from the ceiling in time to crush these furnace wreckers, never let such people in your house.

If these con men ever win admission to the furnace room you are a cinch to need a new furnace and if the owner doesn't speak right up and order a new one the wreckers walk out, leaving the poor owner in a mess.

Out in the Kansas-Missouri area the furnace racketeers have brought a refinement to the wrecking formula. They remove portions or parts of the heating plant and cart them away. Such parts or portions quite sound. There is nothing wrong with them. They may show signs of wear—but don't we all?

"Sorry," the con man tells the furnace owner, "but you will have a new thingamabob and new whosit."

They take the parts with them, they say, so be sure to match them, they explain.

They have been taking them to a machine shop where the man in charge gave them a treatment that gave them a new look. The racketeers then took the parts back and installed them, charging the homeowner a stiff fee.

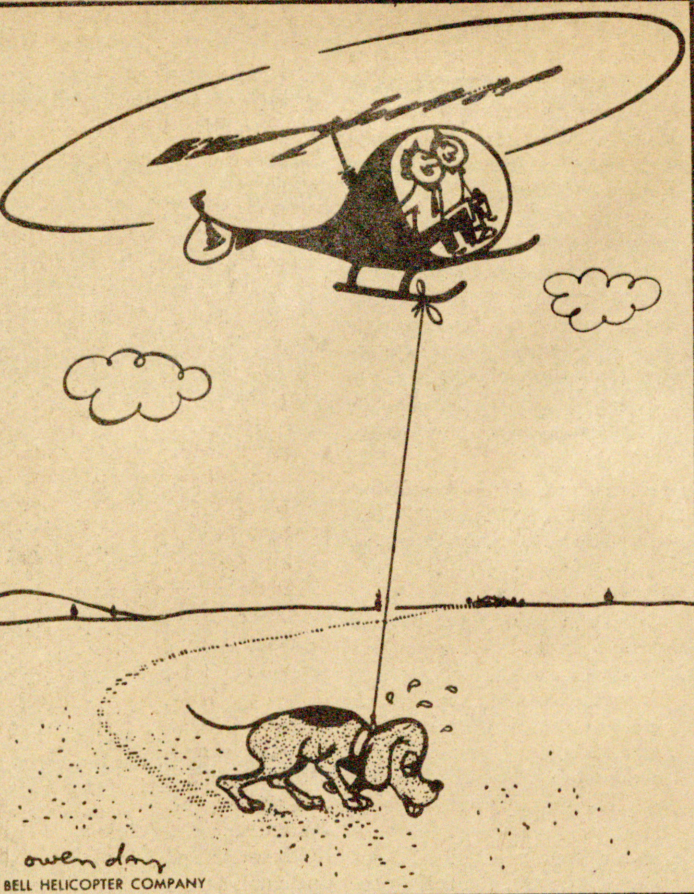

The grand jury has been taking testimony on the subject and is expected to return indictments.

The moral, of course, is to have no truck with boomer furnace merchants.

Net proceeds of the sale of the new stock, estimated at about \$22 million, will be applied toward the utility's five-year (1961-65) construction program, now estimated at \$215 million. Sheehan stated that \$125 million of this amount will have to come from outside sources.

In recent years, the privilege against self-incrimination has become one of the most familiar of the many civil rights embodied in our Constitution. Widespread publicity of recent investigations by various legislative committees has made the privilege against self-incrimination a topic of frequent discussion and considerable controversy.

The historical origins of the privilege are rather obscure. Some legal historians trace its beginnings as far back as the 12th Century of the English common law. It has also been suggested that the privilege may have originated as a protection against the ancient practice of "trial by ordeal". Under this system an accused person who entered a plea of not guilty was subjected to extreme physical torture. If he survived, he was considered innocent. If he succumbed, he was declared guilty.

TORTURE ONCE COMMON
Long after the practice of trial by ordeal passed from the scene, physical torture was frequently, and legally, employed in the courts of England. Persons suspected of treason were arrested and tortured for the purpose of obtaining a confession of guilt. This was usually done before any formal accusation had been made. During this period the principle clearly emerged that "no man should be required to accuse himself."

At this stage of its development, the principle was directed against abusive police methods and was not as yet thought of as a right available in court. It was not until about the middle of the 17th century that the privilege, as we know it today, began to take solid hold in the English common law.

The privilege found its way into the law of the American colonies as a heritage of the English common law. Historical evidence of its operation during the colonial days is rather sparse. In 1791 the privilege was enacted into the 5th Amendment to the Federal Constitution, providing that "no person shall be compelled in any criminal case to be a witness against himself." The constitution of the state of Illinois also contains this provision.

The privilege against self-incrimination permits a person to refuse to testify as a witness in any court proceeding, civil or criminal, if he can establish that the testimony called for would tend to subject him to punishment for violation of a criminal law. This does not mean that a witness can ignore a properly issued summons or subpoena and refuse to appear in court. He must respond, appear in court, and then claim his privilege.

CONTEMPT OF COURT
The witness may refuse to answer only those questions the answer to which would tend to incriminate him.

Therefore he cannot claim the privilege as to a question which appears to be harmless on its face, or which, if answered, would tend to disgrace him or harm his reputation. Questions can be avoided by use of the privilege only if the witness can establish that the answer would constitute a disclosure of a chain of events establishing a criminal act. If he cannot do so, but still refuses to answer, he may be held

in contempt of court. CRIMINAL CASE DIFFERENT

In contrast, the defendant in a criminal case may refuse to take the stand at all.

The privilege against self-incrimination is generally invoked before judicial tribunals, but it is also available before grand juries and other similar bodies, and it appears that the privilege is available to a witness called to testify before a congressional committee.

Whether the historical basis for the privilege no longer exists so that today the privilege serves only to protect guilty persons from the punishment they deserve or whether it is still a valuable bulwark against the abuses of a police state is the subject of much debate.

(This column is written to inform and not to advise. No person should ever apply or interpret any law without consulting his attorney. Even a slight difference in the facts may change the result under the law.)

Hints For Homeowners

By: JAMES FIZZELL, ASS'T. FARM ADVISER

These last few days of July and the first part of August are important ones for pansy fanciers.

For plants to bloom early in the spring, sow pansy seed the latter part of July in this area. If healthy pansy plants are set out early in the fall, they will bloom later before winter. They'll even bloom during the winter if there is an extended thaw.

It takes about four weeks from the time seed is sown in hot weather to grow seedlings with six to eight leaves. This is a good size for transplanting into the garden or cold frame. To come through the winter well, pansies require another four weeks to become established and reach blooming size before cold weather starts.

Plant pansy seed in a mixture of one part loam, one part sand and one part peat moss. Place the seeds thinly and evenly in rows about two inches apart. Cover them lightly with soil. Keep the seedbed moist but not wet, and near 58 degrees F. during the five to seven day germination period.

Many gardeners prefer to buy pansy plants in the fall at transplanting time. The better strains are grown by nurserymen and florists in this area.

When pansy plants are ready to be set out, lift the seedlings carefully, and reset them at the same level as in the seedbed. Usually the plants are spaced about 6 to 10 inches apart in the garden.

After the ground freezes, apply a mulch of peat moss or straw to prevent temperature fluctuations. Hard freezing does not usually harm pansies. But alternate freezing and thawing does harm by lifting the plants out of the unprotected soil.

Colorful pansies belong to the hardy perennial group of garden flowers. They are known as cool-weather plants because they display their largest, most colorful flowers in a temperature range of 40 degrees F. at night and 50 to 60 degrees F. during the day.

Business & Finance

By MAURICE P. ANGLAND

The Fortune Magazine business roundup report on general business in June issue, is very pleasant reading. It points out that total business in the present phase of recovery from the recession, is sharper than in any other post-war recovery.

The article states that it is plain that a large (and possibly too large) a boom is in the making.

The article states that the upsurge has been especially heavy in steel and automobiles. These two industries accounted for about half of industrial index increase in April and rose still faster in May. The article notes that fast increase in steel and auto production stems from drop in sales last winter and sharp cuts in assemblies and steel orders.

General business has been benefitting from increase in consumer incomes which reached a record annual rate of \$410 billion in April and higher in May. Consumer savings in May were more than 8% of discretionary income. This is ample for higher consumer sales.

The article states that private investment increases may well turn this present business increase into boom proportions. It comments that capital expenditures is already better than at the start of the year and the authors feel does not yet reflect the present recovery.

Larger orders and earnings usually make directors more receptive to new capital outlays and expansion plans. The article expresses belief there will be a rather full use of plant in most industries.

The article forecasts that as business plans for new capacity needs, its expected projection of a 3% increase may well increase to 4 per cent as output presses against present capacity, in 1962. They express belief that if the 4 per cent rate is reached, it will generate about \$8 billion in new capital outlays and this certainly would be a considerable push to an economy which is expected to be going ahead at a good speed.

The prospect of increased government spending is also considered. Congress has already passed — temporary unemployment benefits; aid to depressed areas and smaller expenditures. To come are enactment of expenditures on housing, social security, schools, rise in defense spending. This latter could become quite large merely to counteract unfavorable world events.

Again, we find that our defense budget is made in Moscow. We must check mate any Russian plans for our own safety.

WILLIAM F. WHITESIDE COOK COUNTY ASSOC. FARM ADVISER TINLEY PARK - KELLOGG 2-4369

The Extension Councils in Cook County give guidance to the Extension Educational program. This program is conducted by the Extension personnel; namely, the farm adviser, home adviser, and their assistants. Extension staff members represent the University of Illinois in this county. The Extension Councils will be assuming additional responsibilities in connection with the Extension program Sept. 1, of this year.

In addition to their educational program responsibilities, their new duties will include budgeting and other financial matters relative to the conduct of the Extension educational program.

The Extension Council elected officers at its last meeting. These officers are: Carl Klehm, Arlington Heights, president; Jacob Kellen Jr., Mt. Prospect, vice-president; Paul T. Sanders, Palos Park, secretary; and Fred Niemeyer, Tinley Park, treasurer. Other agricultural council members from this area are: Charles Erickson, Mokena; Melvin Hoyer, Matteson; George Kloss, Chicago Heights; and Casey Paarlberg, So. Holland.

The third summer meeting for vegetable growers will be held July 26 at 7 p.m., at the weed control demonstration plot located just east of Glenwood, Specialists from the University of Illinois College of Agriculture will be at the meeting to answer questions and assist.

The article is apprehensive regarding labor demands when new auto and steel contracts are coming up in 1962. Industrial efforts to protect themselves from production stoppage might well touch off an inventory boom in 1962.

Recent increase in minimum wages and increase in numbers covered by the law which brings total so covered to 2,600,000. Direct income increases in September will be at a rate of half billion a year and a considerable additional sum in adjusting of wage differentials. The article expects this increase to bring about other labor demands and inventory buying to beat any price increases.

A number of well informed commentators are recommending the stocks which represent capital investment industries and termed cyclical. This, obviously, in the belief that there is to be an increase in expenditures on production facilities. Further increases in production costs, will generate greater speed in automation.

growers with production problems. Vegetable growers are invited to bring for identification diseased plant specimens or insects. Dr. Malcolm Shurtleff, new extension plant pathologist, University of Illinois College of Agriculture will attend the meeting. I am sure vegetable growers will be interested in meeting our new plant disease specialist.

Window ventilating fans, when used as exhaust fans, will bring the warm air from the rest of the house through the room containing the fan. Attic fans are most satisfactory because they exhaust the warm air in the house through the attic and bring cool air in through open windows in bedrooms or living areas.

There will likely be some days this summer when you can do those odd chores you've been putting off. An example is checking your farm drains. University of Illinois agricultural engineers advise making sure that tile lines are sound and that outlets in ditch banks allow a clear fall for the water. Maybe a few shovelfuls of soil will plug that gully starting around the field structure. Also check the sump pump in the basement, and the septic tank. If you don't feel like doing the repair work, hire someone to do it. A little work now may save a big repair bill later.

Area Students At Recreation Camp

Four area high school students are among the 129 who attended the 1961 Summer Recreation camp at Eastern Illinois university July 9 thru 16.

They are Clara Chapman, Karen Weems and Judy Werner, all of New Lenox, and Beverly Guildenzoph of Manhattan. Designed for high school youth from 14 to 18 years of age, the two week camp offered participation in eight different sports plus evening social and cultural entertainment.

Local Animal Sets Production Record

A registered Holstein cow, owned by Albert H. Krusemark, Osage farms, Frankfort, has completed an outstanding official production record. This was announced by the Holstein-Friesian Assoc. of America. Under testing, supervised by the University of Illinois, the cow, Ogren Sovereign Willie, produced 16,050 pounds of milk and 569 pounds of butterfat in 305 days on twice daily milking as a five year old.

THE FLAMELESS ELECTRIC KITCHEN

WHEN YOU MODERNIZE YOUR KITCHEN, REMEMBER...

A flameless electric kitchen won't go out of date

Planning your kitchen remodeling is like planning your kitchen work for the next 20 or more years.

Naturally, you want to make sure that the money you invest and the appliances you select will pay you back with easier meal-making, pleasanter surroundings and a kitchen that's easier to clean and keep clean.

A flameless electric kitchen offers you all of these things and more.

Take the electric range, for example. This is the heart of every flameless electric kitchen. With it, you can cook your meals without overheating your kitchen (or yourself). The oven is insulated on all six sides, not just five. Hardly any heat escapes. The surface units transfer heat directly into pans and into foods—not into your kitchen.

And because electric ranges burn no fuel, no dirt is created. Your kitchen (and everything in it) stays clean twice as long.

Before you spend a penny on kitchen remodeling, get a professionally-prepared plan based on your specific needs and budget. An experienced kitchen specialist can show you how imaginative planning can save you steps and eliminate unnecessary bending and reaching. He can also help you work out color schemes and lighting effects and help solve storage problems.

North Beat South Babe Ruth All Stars 6 To 5

The North Division of the Tri-County Babe Ruth League won the annual all-star game played at Manhattan last Saturday night, defeating the South Division 6 to 5 in an extra inning tilt. The Norths scored a run in the last of the eighth to win.

Petleski, wore a dress of frosted green with matching accessories. Her corsage was a cymbidium orchid. Mrs. Alma Brown, maternal grandmother of the bride, and Mr. and Mrs. Louis Pytlewski, paternal grandparents of the groom, were in attendance.

A reception followed the ceremony in the church parlors which was decorated with floral centerpieces. A supper for 175 guests was served by Mrs. Brown. Refreshments, highlighted by a decorated wedding cake, were also served.

Miss Lavonne Erdman cut the cake. Mrs. Pat Nice assisted with the gift table and Miss Jean Sagan was in charge of the guest book.

Following a wedding trip to a Missouri resort, the couple is making their new home at 13706 W. 145th Pl., Lockport.

Pre-nuptial parties were given by Miss Shirley Nelson and Mrs. Ruth White, Mrs. Nice and Mrs. Carol Pomatto.

The new Mrs. Petleski is employed in the office of Al Baskin's at Joliet. Mr. Petleski is with the Public Service Co.

The Small Fry contingent from the North Division, however, was clobbered by the South All-Stars 8 to 2. The Small Fry contest began at 6:30. The Babe Ruth game got under way about 8 o'clock.

There were four players on the North Division Babe Ruth squad from New Lenox, Jeff Urban, John Lord, Wayne Fuchs and Bob Fitzer. Manhattan was represented by Jim Smith, Van Delay, Gene Robinson and Dave Mundt. Representing Joliet were Charles Anderson, Jim Makey and Ken Terlep. The rest of the squad was made up of young men from Steger, John Ranieri, Ted Kazmarski and Mike Fazzini.

The South Division squad came from Peotone, Monee, Manteno, Grant Park and Beecher.

Two hits, two walks and an error in the fifth inning accounted for all of the South's tallies and they came after Wayne Fuchs had struck out the first two batters. Then he settled down and kept the Souths hitless for the remaining three innings. Wayne was the winning pitcher.

The Norths scored four runs in the first inning and held that advantage until the Souths scored five runs in the fifth. The Norths knotted the count with a run in their half of the fifth and that was all the scoring until the bottom half of the eighth.

Lord singled in that inning and then stole second.

Ruth Schneider

Former Mokena Resident, Dies

Mrs. Ruth Schneider, 63 years old, former Mokena resident, died Saturday, July 15, 1961 in St. Joseph's hospital following a lingering illness.

The former Ruth Niehammer was born August 3, 1898 at Grant Park, Ill. and moved to Mokena when a small child with her family.

She had been employed as a bookkeeper for the Hoff Products Company of Chicago for 27 years before ill health forced her to resign her position four years ago. She was a member of the Royal Neighbors of America camp 6054 and also a member of St. John's United Church of Christ at Mokena. She was also a member of the first Campfire Girls organization in Mokena.

Preceding her in death were her parents Mr. and Mrs. William Niehammer, a brother Hugo who died a year ago June 23, 1960 and her husband.

Surviving are a niece Mrs. Donald (Audrey) Reiter of Joliet, two uncles in Indiana and a sister — in — law Mrs. Florence Niehammer of Mokena.

Funeral services were conducted Monday, July 17 from West End Funeral home, Chicago Heights with the Rev. Theodore Wimmer, pastor of St. John's church officiating. Burial was in the church cemetery.

Cole Circus Is Coming To Orland

The Cole circus is to show at Orland Park on Tuesday, Aug. 1 under the auspices of the Chamber of Commerce, it was announced by Ray Schank, C. of C. president.

Cole circus is now in its 51st year. It will arrive at Orland Park in a 20-truck train in the early morning of Aug. 1 and set up at the American Legion grounds on 143rd street near LaGrange road.

The circus carries more than 100 animals, 40 people and tons and tons of equipment.

Erection of the first tents is scheduled for about 7 a.m. The public is invited to watch the tent crews — which include elephants — perform their tasks. Setting up a circus is always an interesting thing and fascinates adults as well as youngsters.

There will be two performances, one in the afternoon and one at night. Tickets for either are now on sale by Orland Park merchants.

PRAYER: Under the canopy of the sky, O God, we come to Thee, Teach us to be appreciative of Thy works around us. Teach us to become more aware of Thy presence in the beautiful out of doors. Through Christ, who prayed in the garden, we pray, Amen.

Demonstrations were given by Pamela Hartung on deviled eggs and by Patsy Grisham. Guests were Rosemary Brown, Kathy Fritz and Pamela Wood. Cathy Codrill in the games. Refreshments were served by Marilyn Nolan and Gail Watson.

Mr. and Mrs. Gerald Schreffler and family have returned home from a camping trip to Washington, D. C.

Mr. and Mrs. Eugene McGowney and daughter, Mary Ellen, have returned home from a two weeks vacation spent at Deep Lake Resort at Minong, Wis.

Miss Pamela Hartung celebrated her 13th birthday anniversary Tuesday, July 11, at the home of her parents, Mr. and Mrs. Joseph Hartung, Haven Ave. Games and dancing were the entertainment. A birthday supper was served at 4 o'clock. A decorated birthday cake centered the table. Favors were presented to each guest from the hostess. Pamela received gifts from her guests.

Those attending the party were Jana Lasater of Indian Head, Md.; Kay Schramm of Frankfort; Penny McPartlin, Rosemary Brown, Pat Dolan, Kathy McGuire, Lois Ruhl, Nancy Braun, Sue Braun, Kathy Codrill and Krystal Lockhart.

A group of relatives dropped in that evening to help Pam celebrate.

Mrs. Vera Schild and child-

ren have returned to their home at Algonquin, Ill., after spending several days with Mrs. Laura Morris, Haven Ave.

Mr. and Mrs. Edward Morris have returned home from a two week vacation at Central City, Neb., where they visited with her brother, Mr. and Mrs. Lawrence Watkins and family.

Mrs. Ernest Pfeifer has recovered from an illness of two weeks.

Mrs. James Sherwood, and Mrs. Harry Werner are medical patients in Silver Cross hospital at Joliet.

Paul Bachmann underwent major surgery in Silver Cross hospital last week.

The Woman's League of Trinity Lutheran church will meet Tuesday, July 25, for its monthly meeting at the church. A film strip on "A Lutheran Rose Blooms in England" will be shown. Dessert-coffee at 1 o'clock will be served by Mrs. Leona Klausling, Mrs. Laura Wulfert and Mrs. Irene Johnson.

Falcon hall, at South Bend. Mr. Woeltje is a former New Lenox resident.

N. Lenox Seeks Engineer To Aid Street Program

With the need for repairs and reconditioning of New Lenox streets, a committee composed of village board members is interviewing engineering firms to select one to serve as village engineer.

The firm will have the immediate task of planning and offering for bids the contracts for repairs. A fund of \$25,000 is reported available for this purpose, to be spent under the direction of state authorities.

Applicants for the position of village treasurer are also being interviewed. William Van Cleve, present treasurer, is resigning due to additional responsibilities with the new bank in Alsip.

William Penn, village attorney, is preparing an ordinance to annex to the village the actual travelled width of N. Cooper St. and N. Elm Dr. These streets are on village boundaries but the quarter-section lines which are the actual boundaries between the village and the township are not consistently in the

center of these streets.

It is necessary to annex the balance of the travelled way in order to clear problems arising from locating and maintaining sewer lines in this area, it was explained.

July 1 marked the first full billing of sewer rents for the new sewer system, although a few prospective users are not connected as yet. With 540 users and prospective users, bills range from \$5 per month for the average residence to \$15 per month for heavy commercial use.

According to a village spokesman, the New Lenox sewer system is the only system in the state that operates without being tied to a parallel water utility. Most New Lenox users provide their own water from private wells.

Billing of sewer rents is made direct to property owners to alleviate difficulty in transferring delinquent accounts to a lien against the property.

Newcomers Presents Checks To Blind Agency

The Southwest Suburban Welcome Wagon Newcomers' club has presented the Palos Park Branch of Recording for the Blind with a generous check, the results of a benefit card party given at the Palos Country club. Mrs. Samuel Davis, program chairman and her committee and Mrs. Edward Foster, president, attribute the success of their fund raising event to the excellent cooperation of their entire membership.

Mrs. Paul Schreiber is chairman of fund raising for the Palos Park Branch of Recording for the Blind and when Mrs. George Wennerberg, area hostess for Welcome Wagon, presented the check she said:

"We have undertaken a big project and we are accomplishing our goal. Our volunteers work unselfishly and without any remuneration. It would be impossible to evaluate their worth in dollars. We are constantly increasing our production and increased production entails more overhead.

We are in the process of organizing a drive for money. This contribution is an encour-

aging start and Welcome Wagon has made friends for us. We are grateful for its support. Last year we kept five blind students supplied with college textbooks and we hope to increase that number this year."
